### Remarks

Horse property with well and underground power in a custom home area. Serious people about privacy, lifestyle and their horses have developed the low density area and this is one of 20 acre parcel that is left. A total of 80 acres with a minor land split of 3- 20 acres and 2-10's is left. The rain has left the desert lush with mesquite and natural vegetation. Building assistance is available at any level.
